Will save you 10 to 25 per cent. on staple goods, such as boots and shoes of all kinds, for ladies', gents' and children's storm rubbers and sandals; fur, wool and crush hats, (these are marked very low, quality considered.) Underwear of all kinds. White shirts, negligee and work shirts; pants, overalls, jackets, ribbons, laces, embroideries. Linen and Turkey red damask, Linen tablecloths, towels, table oilcloths, lace curtains, tablecloths, pencils and notions of all kinds.

WHY CAN SO MUCH BE SAVED?

Because all goods are bought for cash from cash houses, and all marked at close profits for cash without calculating for losses from bad accounts, giving the customer all the advantage of the per centage saved, you can plainly see why we can sell goods of good quality at low prices.

Board of Trade Fired Upon.

CHICAGO, Sept. 27.—A fusillade of bullets was fired into the wheat pit on the board of trade at about noon. Traders scattered in a hurry, business came to a standstill, and the wildest excitement ensued. A. N. Bennett, a broker, received a frightful wound in the neck; Chas. Roswell, a telegraph operator, was shot in the leg, a woman in the spectators' gallery is also said to be wounded. The shooter was a red-headed man in the gallery. He was quickly overpowered. He is supposed to be insane. Both the wounded men will die. The shooter gave his name as Cassius Belden.

New States Wanted.

WASHINGTON, Sept. 27.—It is highly probable that the committee on territories will report a bill for the admission of Utah to statehood within a few days. Joseph, a member of that committee, said that such a bill would be reported, and added that before the close of the present session bill for the admission of Arizona, New Mexico and Oklahoma would be reported favorably from his committee. He expressed great confidence in all four becoming laws.

In Congress.

WASHINGTON, Sept. 27.—In the senate the resolution offered yesterday by Dubois, Republican of Idaho, to postpone legislation respecting the federal election laws, finance and tariff, until January 15th, because of vacancies in the senate representation of Washington, Montana and Wyoming, was taken up. Dubois addressed the senate in advocacy of its adoption. Mitchell, of Oregon, said he would oppose the resolution to the bitter end.

Gladstone's Ovation.

EDINBURGH, Sept. 27.—Gladstone met with a rousing reception at Albert Hall this afternoon. He began his speech by expressing a hope for Scotch legislation before the end of the year. "Irish Question," continued Gladstone, "barred progress in that direction, and it was only just to say the lords were responsible for the fact of this barrier still remaining."

Prize Fighters Fined.

PORTLAND, Sept. 27.—Seven persons including the principals in the recent Evans-Mahan prize fight, plead guilty to the charge of prize fighting. All were sentenced to a fine of one thousand dollars each. The case will be carried to the supreme court.

PARIS, Sept. 27.—A dispatch from Chantabun, Siam, says the French cruiser Alouette has captured Paknam fort, put a garrison inside and proceeded to build rifle pits around the barracks.

A Ghastly Find.
SAN FRANCISCO, Sept. 27.—Part of the remains of Addie Gilmour, the girl who is supposed to have been murdered and cut up by Dr. West, was found in an off can floating in the bay near the Berkeley shore today.

Battle in Argentina.
BUENOS AYRES, Sept. 27.—An exciting skirmish took place yesterday in the outer roads of this harbor between some torpedo boats which had joined revolutionists and vessels of the Argentine fleet. The loyal men-of-war captured the rebel boats and crews.

Fighting between the two fleets was very sharp for a time and many men were killed, including several officers. National guards, who have been mobilized, were trooping today in large numbers to the various barracks. Roca is directing operations against the rebels. Colonel Espina, who instigated the attack, has been arrested. He will probably be shot.

Chinamen Transported.

LA GRANDE, Or., Sept. 27.—A delegation of anti-Chinese agitators visited Cove and secured about fourteen Chinamen who were picking hops in the yard of H. J. Geer. Other Chinamen living in that section had been apprised of the intended raid and succeeded in evading the mob. The captured Chinamen were loaded into wagons and carried to the mountains west of La Grande, where they were liberated and told to leave the country.

Chinese Deported.

LOS ANGELES, Cal., Sept. 27.—Judge Ross yesterday afternoon ordered the deportation of five Chinamen, four of them were highlanders, Judge Ross held that a Chinaman who held an interest in a mercantile firm was not a merchant within the meaning of the Geary law. He must be actively engaged in business.

Cholera in Persia.

TEHERAN, Sept. 27.—The Asiatic cholera, which has been present in the Persian gulf the last fortnight, has appeared at Kazerun near Shiraz. There are many deaths daily. Villages along the route to Bushire are deserted.

Counterfeiters Raided.

NEW YORK, Sept. 27.—An extensive counterfeiting plant has been raided at Livingston and Angelo Delinco and his alleged wife were arrested. The police secured over a million dollars in counterfeit bills. There were four in the gang altogether, two men and two women. Delinco had an arrangement with a man named Ferris to make counterfeit bills of Argentine currency and women to dispose of it for good American bills. Ferris weakened and gave information to the police.

Presidential Appointments.

WASHINGTON, Sept. 27.—The general impression here is that Van Alen cannot be confirmed. Several members of the senate committee on foreign relations have intimated as much. It would even appear that there was a strong probability of the nomination being pigeon-holed in the committee. Senator Dolph of Oregon, is a member of the committee, and a very warm personal friend of Senator Hill. Great surprise is expressed on all hands that the president should have sent Van Alen's name to the senate, being fully informed as to the \$50,000 contribution made by Van Alen to the Democratic campaign fund.

The president has nominated R. E. Preston director of the mint.

Hops in New York.

NEW YORK, Sept. 27.—Hops quiet; operators are uncertain as to what course the market is likely to take. The sales are mainly for current consumption. Best Pacifics are quoted at 21 to 24 cents.

THE MID-WINTER FAIR.

What Will Be Done At the Pacific Coast Exposition.

CHICAGO, Sept. 27.—From any point of view the success of the California midwinter international exposition, which opens in San Francisco on New Year's day, seems assured. There is not the slightest doubt of a large attendance from foreign countries, and the American states other than those bordering on the Pacific coast. This is evident from the large number of visitors to the world's Columbian exposition who call at the headquarters of the midwinter fair, in the California state building, to obtain information about the forthcoming exposition.

Many of these visitors, pleased with their experience of expositions, declare their intention to take advantage of the favorable rates already pledged by the railroads, and visit the midwinter fair.

There are many people in the United States of moderate circumstances who have been all their lives desirous of paying a visit to the "Land of Fruit and Flowers." These have been prevented from accomplishing their wish by the large amount the railroads were, on account of the distance forced to charge. Now, however, the railroads have promised to make a one fare rate for the round trip, and the passenger fares may be cut still lower. This will bring the cost of a trip within a sum which even those with poorly lined purses, may be able to afford; and the double attraction of a winter without snow or ice, and a wonderful international exposition will prove irresistible.

An account of the plan and scope of the midwinter exposition has been requested verbally and orally by so many people that your correspondent believes that he cannot fail to interest his readers by giving answers to some of the questions which have been asked.

It must not be forgotten that while the California fair will be essentially international in character it will not be as great in size as the Chicago fair. The midwinter fair has been modeled upon entirely different lines. The difference in the character of the two expositions will be quite as marked as the difference in size. At the world's fair is shown all that human effort has accomplished. The midwinter fair will show all that is best in art, science and industry of the world. The great fault found with the world's fair is that it is too large and the multiplicity of the exhibits makes it impossible for anyone to see everything. One of those men, who have a fondness for queer calculations, has discovered that if but two minutes were devoted to each exhibit, it would take thirty-two years to see the fair. The visitor who can remain in Chicago but a few days, must waste much of his time seeing things of but little interest to him. So well is this recognized that numerous guides enabling visitors to tell the wheat from the chaff have been prepared under such titles as "What to see at the Fair," "The best things to see and how to find them," etc.

There will be no necessity for any such guides at the midwinter fair. Everything will be worthy the careful attention of the visitor, anything else will not be shown. The best and most interesting exhibits in each department will be removed from Chicago to San Francisco after the close of the world's fair. In addition to this many interesting displays, which are entirely original, will be made. An exposition such as this is a novelty in America where there are no exhibitions between a state fair on the one hand, and such a world's wonder as the Centennial or the Columbian exposition on the other. But in Europe international expositions, comparatively small in size but extremely select in character, are of almost yearly occurrence. They have been established upon the single basis of merit and in the scores which have been held, but very few are marked as failures. Each has been a profitable investment and all have possessed a great influence upon the industrial life of the nation within whose borders they have been held.

One of the most interesting features of the world's fair is the Midway Plaisance. People like amusement after the tiresome work of sightseeing. At the California exposition this will be quite a feature. Many of the best displays on the Midway Plaisance will go to San Francisco, when the snow begins to fly here. There will also be several novel displays. Two acres of space to reproduce one of the famous pleasure gardens of Vienna have been applied for. It will be different from the Old Vienna exhibit here on the Plaisance or anything ever before seen in Chicago; all of the attractions are to

be brought from Vienna itself. Hawaiian Commissioner L. A. Thornton wants to reproduce a Hawaiian village at the world's fair. Leopold Bonet & Co. wish to erect a tower 200 feet high and fifty feet square at its base. It is to contain four restaurants. Santa Barbara business men have applied for a concession to erect a building on the midwinter fair grounds, to contain grottoes, aquariums and rookeries where seals, sea otters, sea lions and sea tigers will sport in their native element. Sea otters are not to be found in any American aquarium, and sea tigers have never been exhibited in captive state.

To catch these animals they are fitting a large schooner with tanks and cages, and are going to train a gang of men; over fifty animals being needed. An exhibitor seeks to reproduce the castle of Heidelberg at San Francisco. He expects to spend at least \$100,000 in fitting up the castle. C. F. Holder has applied for a space to exhibit village representative of the customs and life of tribes formerly and at present inhabiting California.

Space has been selected and assigned for a Japanese tea garden. The plans include the beautiful castle gateway in which the massive Japanese gates will be hung, forming an elaborate entrance to the structure which will be an architectural feature of considerable importance. Much interest is taken in the exposition by foreign countries. Director-General DeYoung has written to the rulers of the world thanking them for their patronage of the World's Columbian Exposition and asking them to encourage their subjects in Chicago as well as within their own confine to participate in the California Midwinter International Exposition. Foreign countries will be well represented. Issa Tanimura the Japanese commissioner has for instance been granted 20,000 square feet for the Japanese section.

A Great Northern Buy.

SIoux CITY, Iowa, Sept. 27.—News received here of the sale in New York of a controlling interest in the Sioux City & Northern and the Sioux City, O'Neil & Western roads, which means J. J. Hill, of the Great Northern has bought all the properties of the collapsed railroad syndicate, and having completed his line to the Pacific coast, is ready to extend it to the southwest.

Insane Man With a Razor.

WILLAMINA, Or., Sept. 27.—[Special] Last Monday morning at about 2 o'clock, Geo. Rinehart, a man who has been stopping with Mr. Burke, of this place, entered the room of his daughter Mabel, and attempted to cut her throat with a razor, but the screams of the girl awakened the household and the man ran out of the door and jumped from the balcony. He ran about a block when he cut his own throat from ear to ear, but not deep enough to cause death, and succeeded in hiding under the hay in a barn, where he was found about 12 hours after. It is thought he will recover. Temporary insanity is said to be the cause.
